

This may sound old and it is, but I will say it anyway. The very foundation of our wonderful country is "freedom". Whether it be freedom of speech, freedom of choice, or whatever. It all boils down to "freedom". Do not allow government to stifle competition which is just a freedom to outthink the other guy and benefit from it. Our country will hopefully always be a stimulus for the little guy to have the unfettered freedom to supercede fat cat complacency through innovation, perseverance, and a little luck. XM radio is one of those little guys. Cheers!!!

Just my thoughts!
